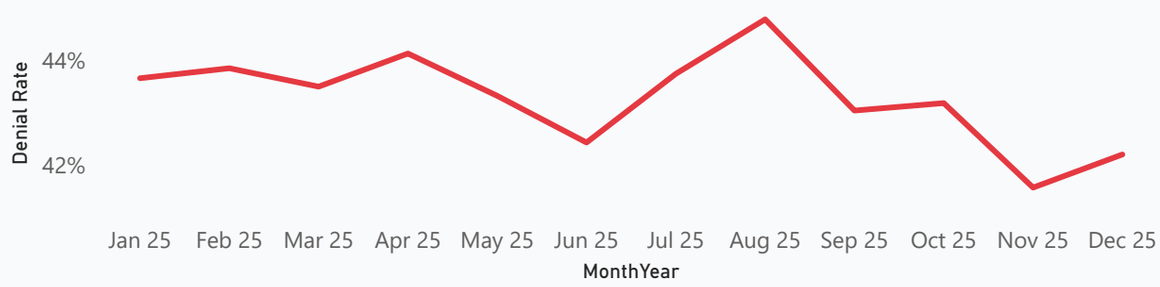
Executive Revenue Cycle

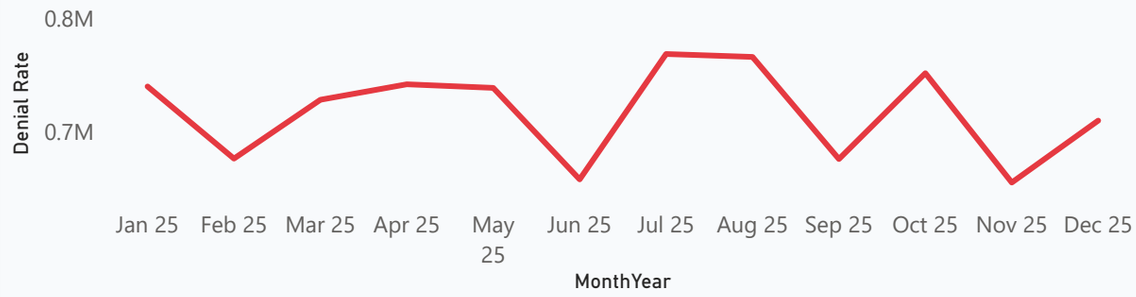
Date	Payer	Facility
2025	All	All

$170.0M	99.9M	43.3%	8.6M	70.1M
Total Charges	Total Paid	Denial Rate	Denied Amount	Value at Risk

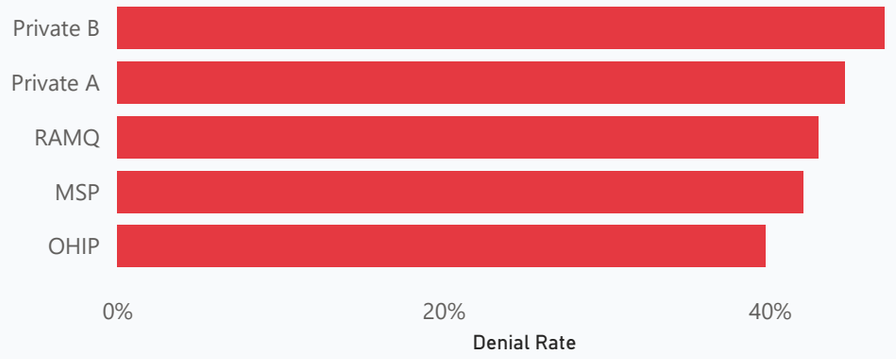
Monthly Denial Rate Trend



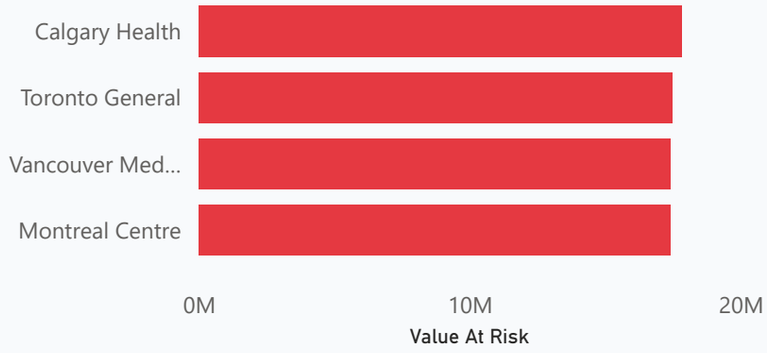
Revenue Leakage Trend



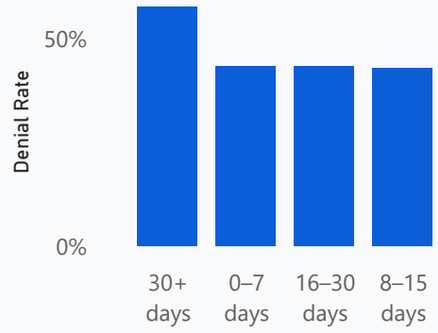
Denial Rate by Payer



Value at Risk by Facility



Denial Rate by Submission Timeliness



This page gives leadership an **at-a-glance financial and denial health summary** and answers: How much money are we making, how much are we losing, and is the situation improving or worsening?

Denial risk and financial exposure represent pre-submission indicators. ML-based risk scoring is used for prioritization, not automated decisions.

Facility & Provider Performance Analysis

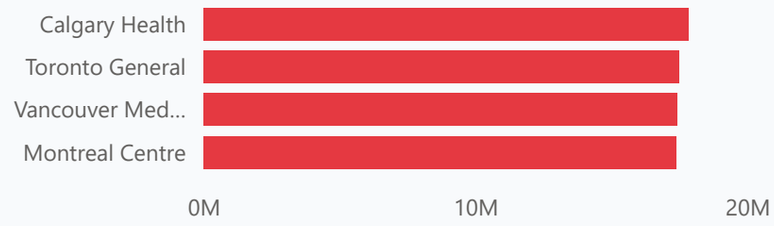
Date	Payer	Facility
2025	All	All

4	80	43.3%	8.6M
Total Facilities	Total Providers	Average Facility Denial Rate	Total Denied Amount

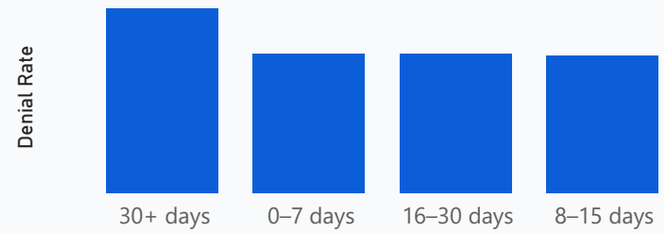
This page answers: **Which facilities and providers are driving denials and revenue risk and where should operational improvements be focused?** This page is intended for: Revenue Cycle Managers, Facility Operations Leaders, Clinical Operations & Coding Leadership

Denial Rate by Facility

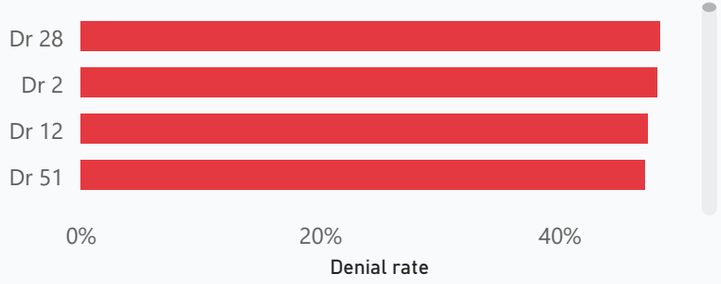
Value at Risk by Facility



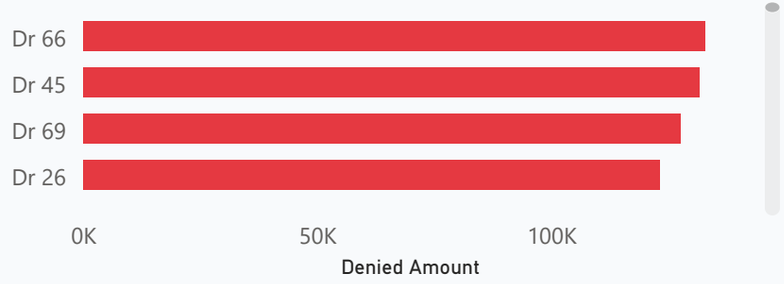
Denial Rate by Submission Timeliness



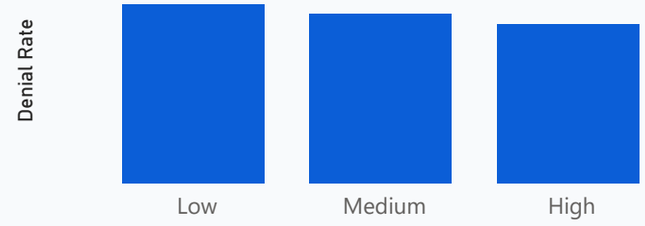
Denial Rate by Provider



Denial Amount by Provider



Denial Rate by Coding Quality



Claim-Level Detail (Facility & Provider Focus)

Claim Line Id Nat	Facility	Provider	Payer	Submit Lag days	Submission Lag Bucket	Coding Completeness Score	Charge Amount	Denied Amount
CL00000000	Calgary Health	Dr 33	MSP	26	16–30 days	1.00	202.83	24.71
CL00000002	Toronto General	Dr 8	MSP	13	8–15 days	0.84	181.24	0.00
CL00000012	Montreal Centre	Dr 71	Private B	1	0–7 days	0.88	15,004.83	1,057.96
CL00000013	Montreal Centre	Dr 18	MSP	10	8–15 days	0.89	15,454.96	0.00
CL00000017	Vancouver Medical	Dr 72	MSP	14	8–15 days	0.90	201.99	0.00
CL00000018	Calgary Health	Dr 39	MSP	31	30+ days	0.85	15,415.20	0.00

Facility and provider metrics represent operational performance indicators. Results should be reviewed in conjunction with coding standards and payer policies.

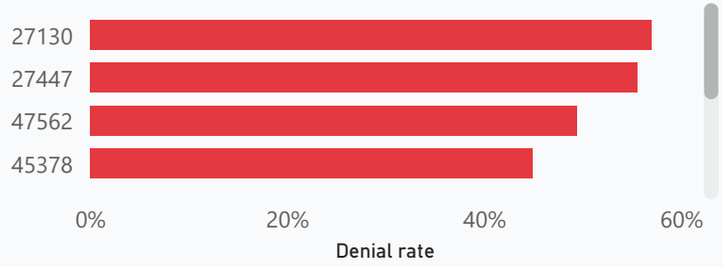
Procedure & Diagnosis Risk Analysis

Date	CPT	ICD
2025	All	All

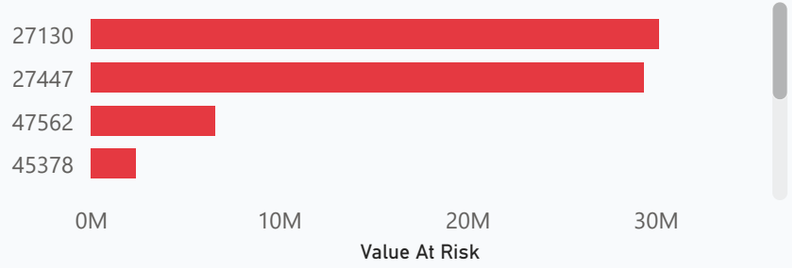
39951	4	8.6M	70.1M
Total Procedures	High Denial Procedures	Total Denied Amount	Value at Risk

This page answers: **Which procedures (CPT) and diagnoses (ICD) are most associated with denials and revenue risk?**
This page is intended for: Coding leadership, Clinical operations, Revenue integrity teams
It focuses on **service-level patterns**, not payers or individual claims.

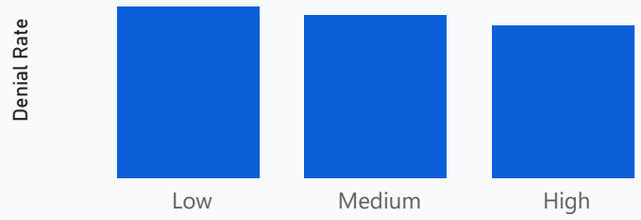
Denial Rate by Procedures



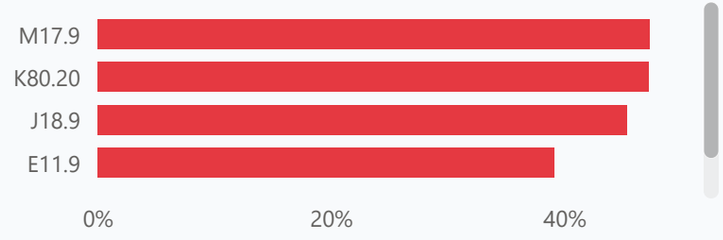
Value at Risk by Procedures



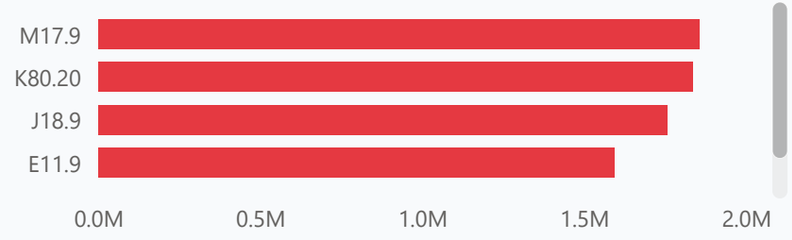
Denial Rate by Coding Quality



Denial Rate by Diagnosis (ICD)



Denial Amount by Diagnosis



Denial Rate by Submission Timeliness

Claim-Level Detail (Facility & Provider Focus)

Claim Line Id Nat	Facility	Payer	CPT Code	ICD Code	Submit Lag days	Submission Lag Bucket	Coding Completeness Score	Charge Amount	Deni
CL00000000	Calgary Health	MSP	99213	M17.9	26	16–30 days	1.00	202.83	
CL00000002	Toronto General	MSP	93000	I10	13	8–15 days	0.84	181.24	
CL00000012	Montreal Centre	Private B	27130	J18.9	1	0–7 days	0.88	15,004.83	
CL00000013	Montreal Centre	MSP	27447	M17.9	10	8–15 days	0.89	15,454.96	
CL00000017	Vancouver Medical	MSP	99213	E11.9	14	8–15 days	0.90	201.99	
CL00000018	Calgary Health	MSP	27130	M17.9	31	30+ days	0.85	15,415.20	

Procedure and diagnosis analytics highlight systematic risk patterns. Results should be reviewed with clinical documentation and coding standards.

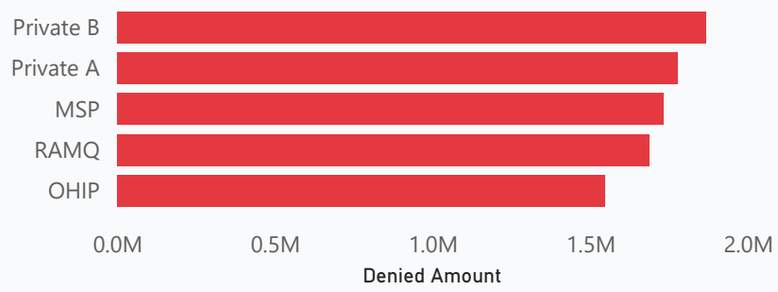
Executive Summary & Action Plan

Date	Payer	Facility
2025	All	All

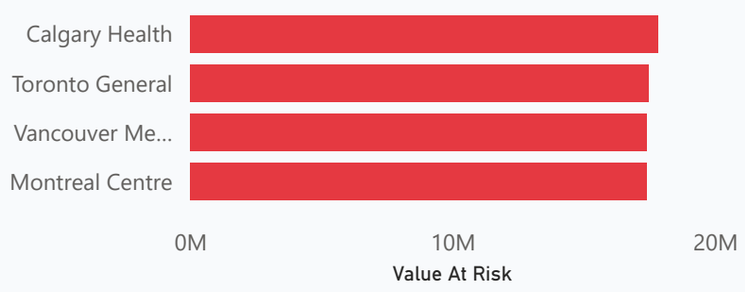
7,01,02,156	43.3%	20.3%	14.2M
Total Value at Risk	Overall denisal Rate	% High Risk Claims	High-Risk Value at Risk

This page answers the final executive questions: **What did we learn, where are the biggest risks, and what actions should leadership take next?** This page is designed for: CFO / Finance Leadership, Revenue Cycle Leadership, Senior Operations Management. It consolidates insights from Pages 1–5 into **decisions and actions**.

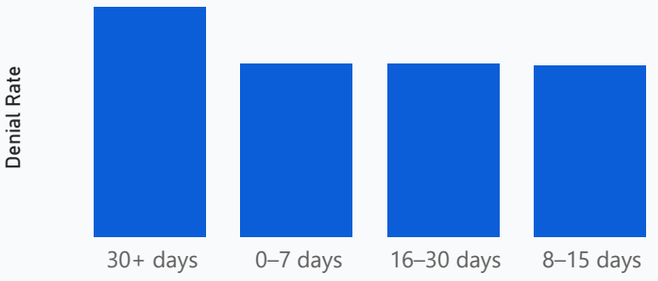
Top Payers by Denial Impact



Top Facilities by Revenue at Risk

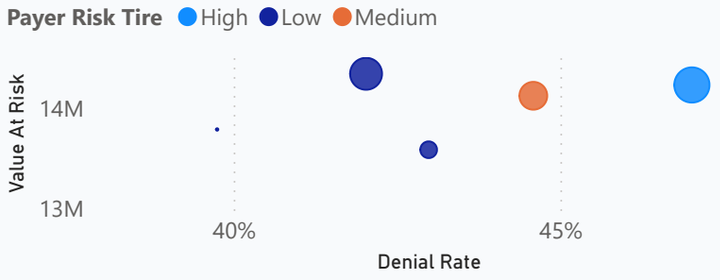


Denial Rate by Submission Timeliness



ML insights support prioritization and resource allocation. Final operational and financial decisions remain management-driven.

Action Priority Matrix



Denial Rate by Coding Quality

Claim-Level Detail (Facility & Provider Focus)

Risk Area	Observation	Recommended Action	Owner
Coding Quality	Low coding completeness is strongly associated with denials.	Conduct targeted coding audits and refresher training.	Coding & Compliance Team
High-Risk Payers	Certain payers show consistently higher denial behavior.	Initiate payer contract review and escalation discussions.	Finance & Contracting
High-Risk Procedures	Specific CPTs contribute disproportionate denial volume.	Update documentation guidelines and pre-authorization workflows.	Clinical Operations
Late Claim Submission	Claims submitted after 30 days show significantly higher denial rates.	Enforce submission SLA and implement pre-submission checks.	Revenue Cycle Operations
Operational Prioritization	High-risk claims are not consistently reviewed before submission.	Use ML risk tiers to prioritize claim review workload.	Revenue Cycle Leadership
